

February 26, 2018—Signing Math and Science looking for families for museum visit

Would you like to visit the Museum of Science Boston or the SEE Science Center in Manchester, NH? Signing Math and Science is looking for families with deaf or hard of hearing children that use ASL, to use and give opinions on a new portable, 3D glossary of ASL science terms that is on an iPod Touch. Please contact tara_robillard@terc.edu for more information or to schedule a visit.
